Website created on client's request on Adobe Muse.
<http://www.perfectna.com>

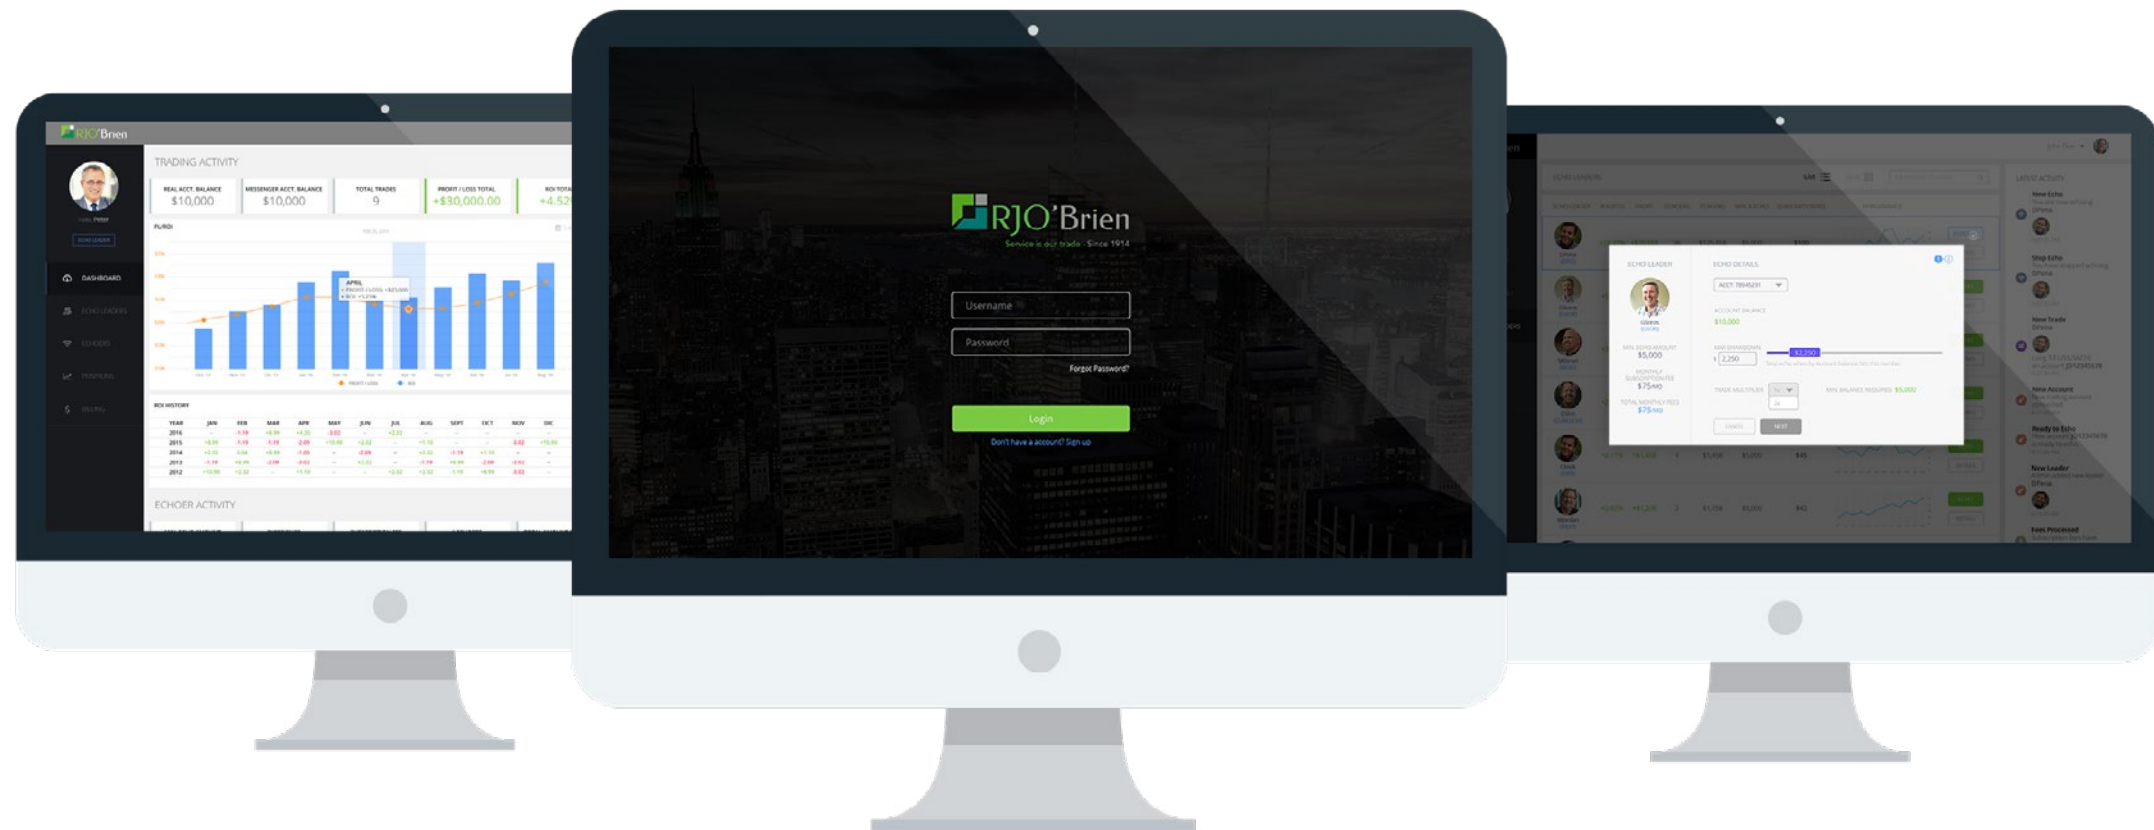

WEB APPdesign

WEBSITE AND WEB APP

Website and platform built exclusively for women searching for jobs, career guidance, advice, and more. <http://www.careercontessa.com/>

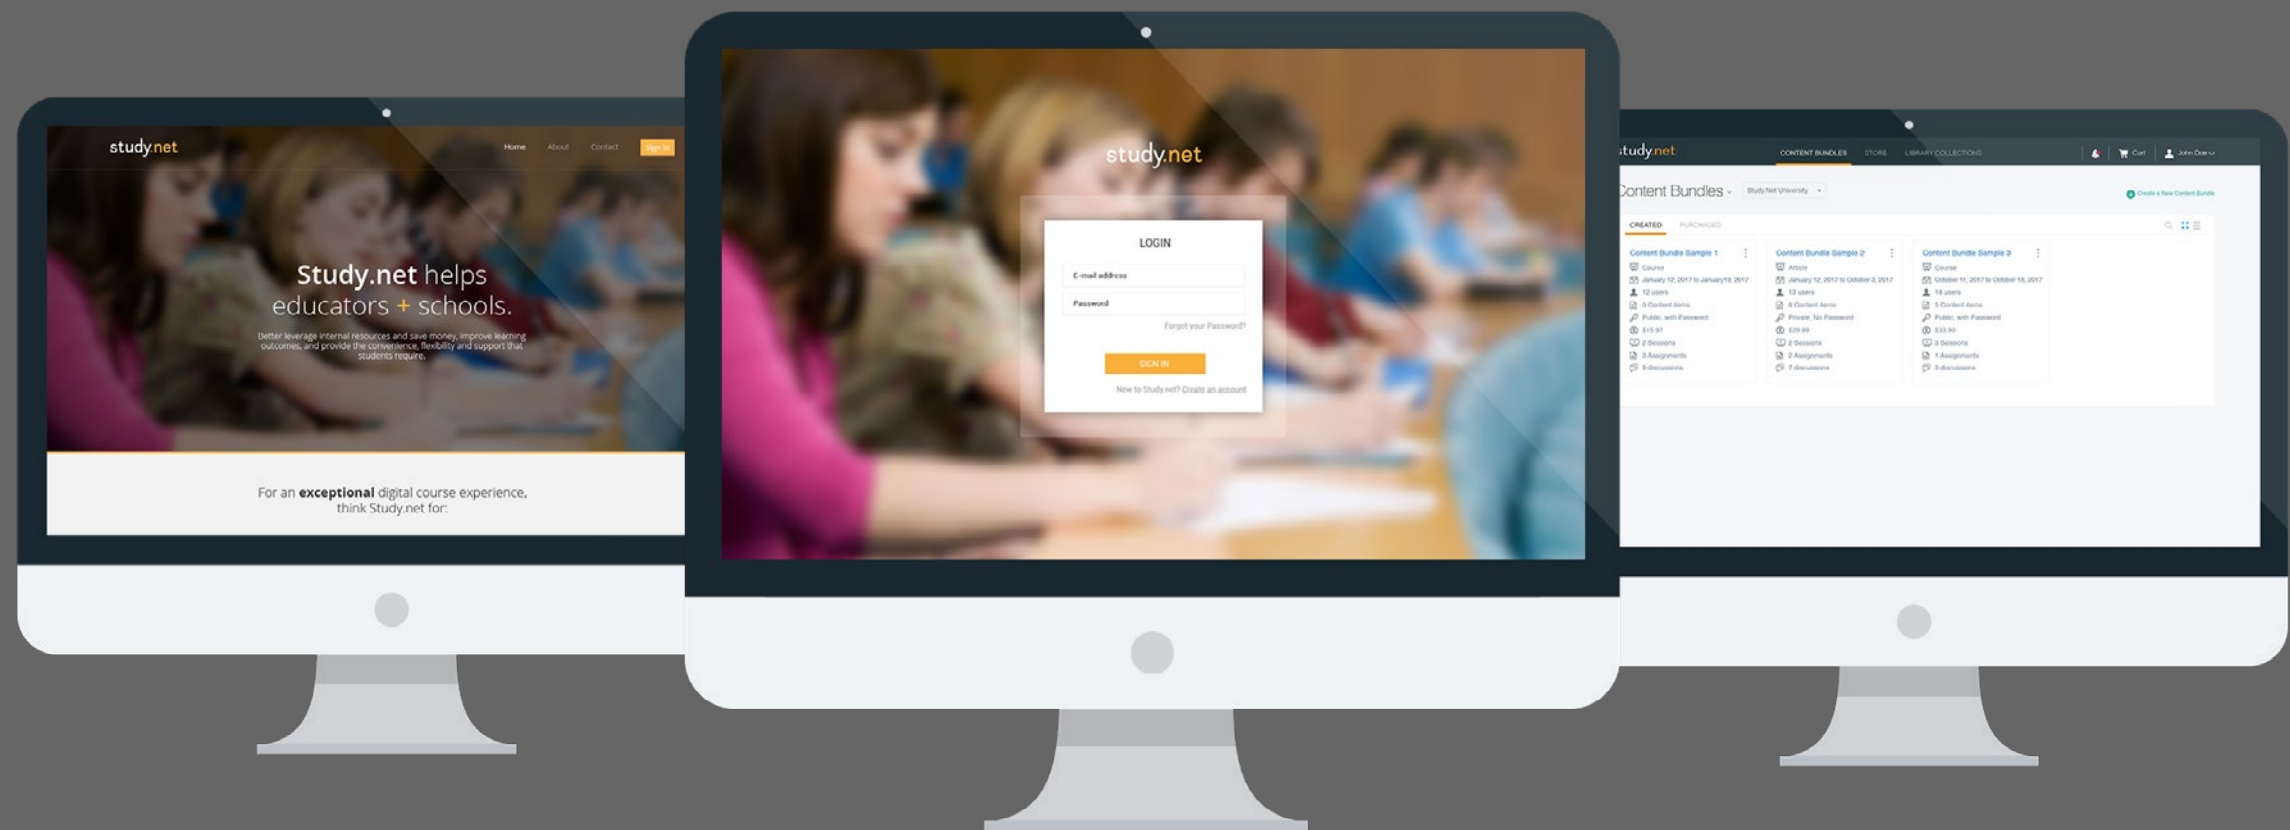

WEB APPdesign

SaaS BASED WEB APP

Application created for multi-level logins with different features on each of them, lots of data views and graphs. Includes activity notifications, admin panel, gamification platform rewards, etc.

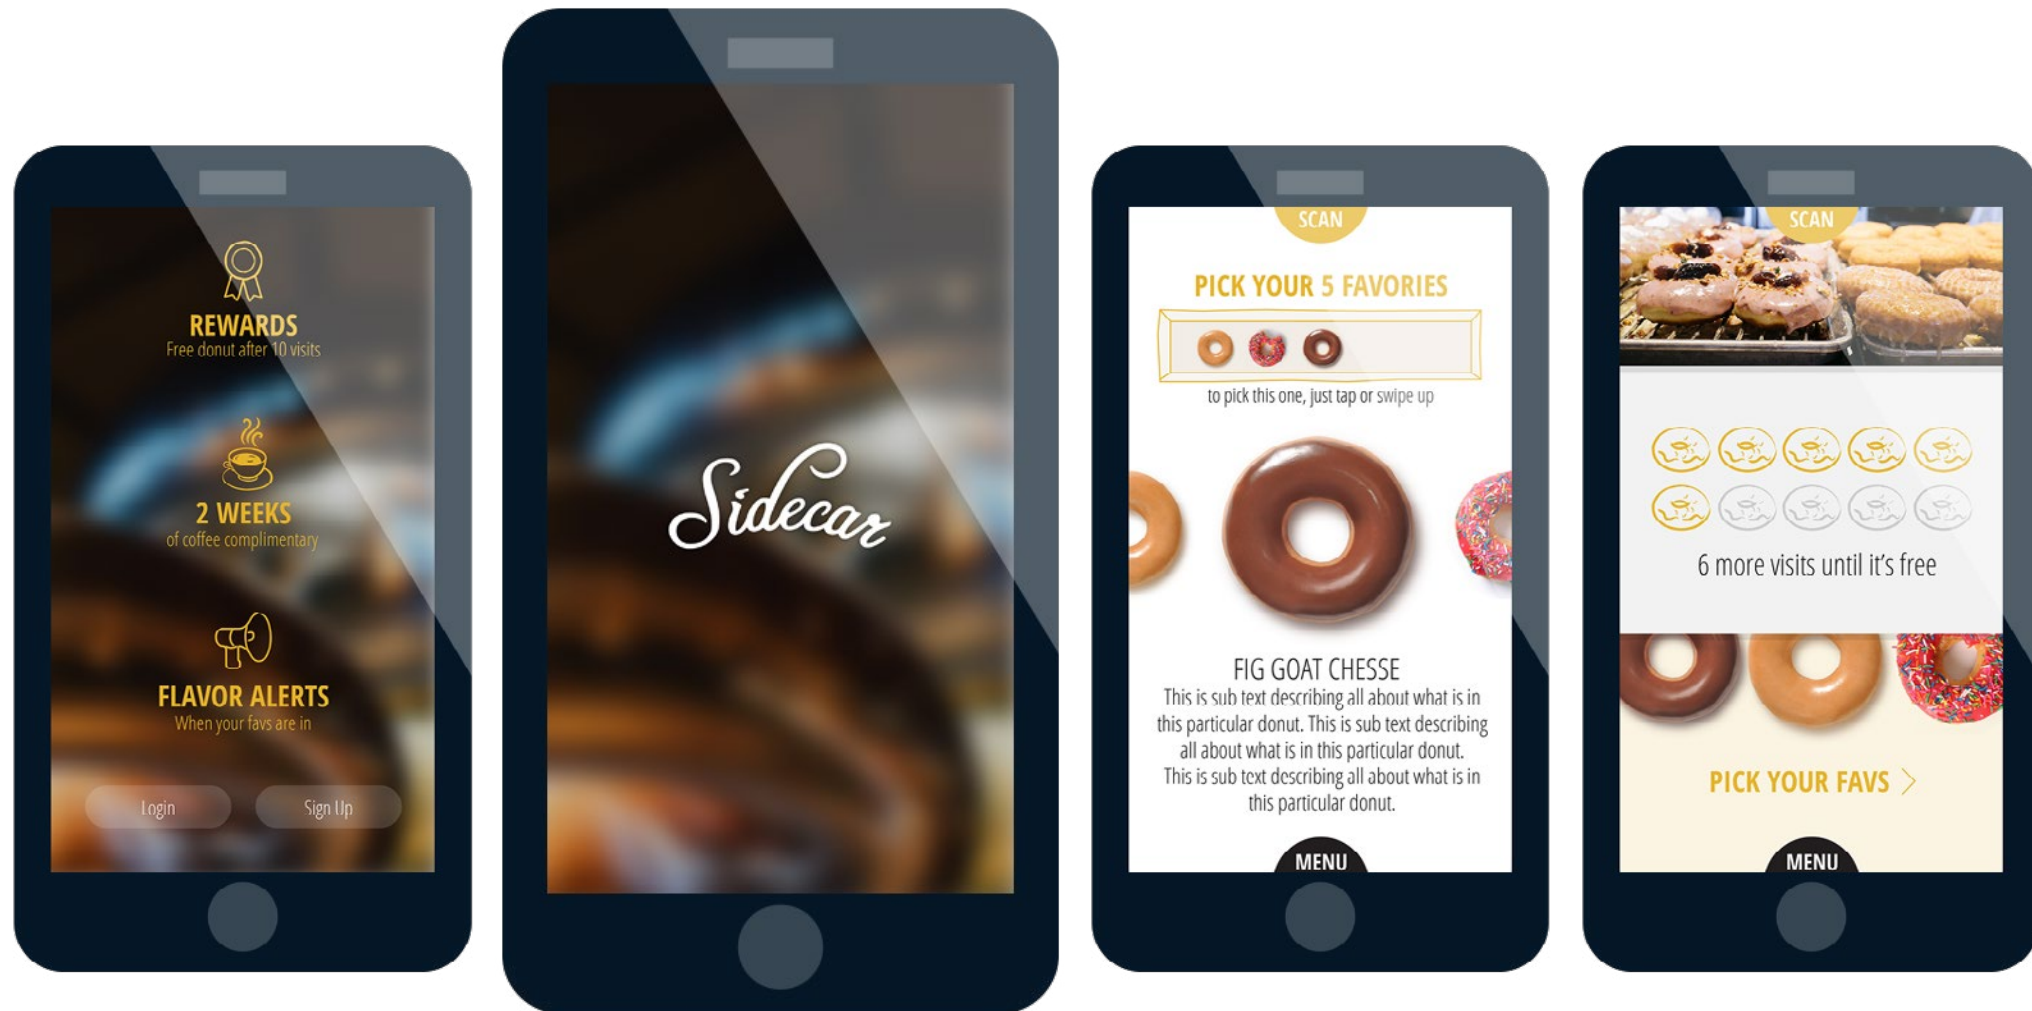

WEB APPdesign

LANDING PAGE AND WEB APPLICATION

Website that provides academic material to higher education and professional students. Users can upload/download material, set price for materials or purchases.

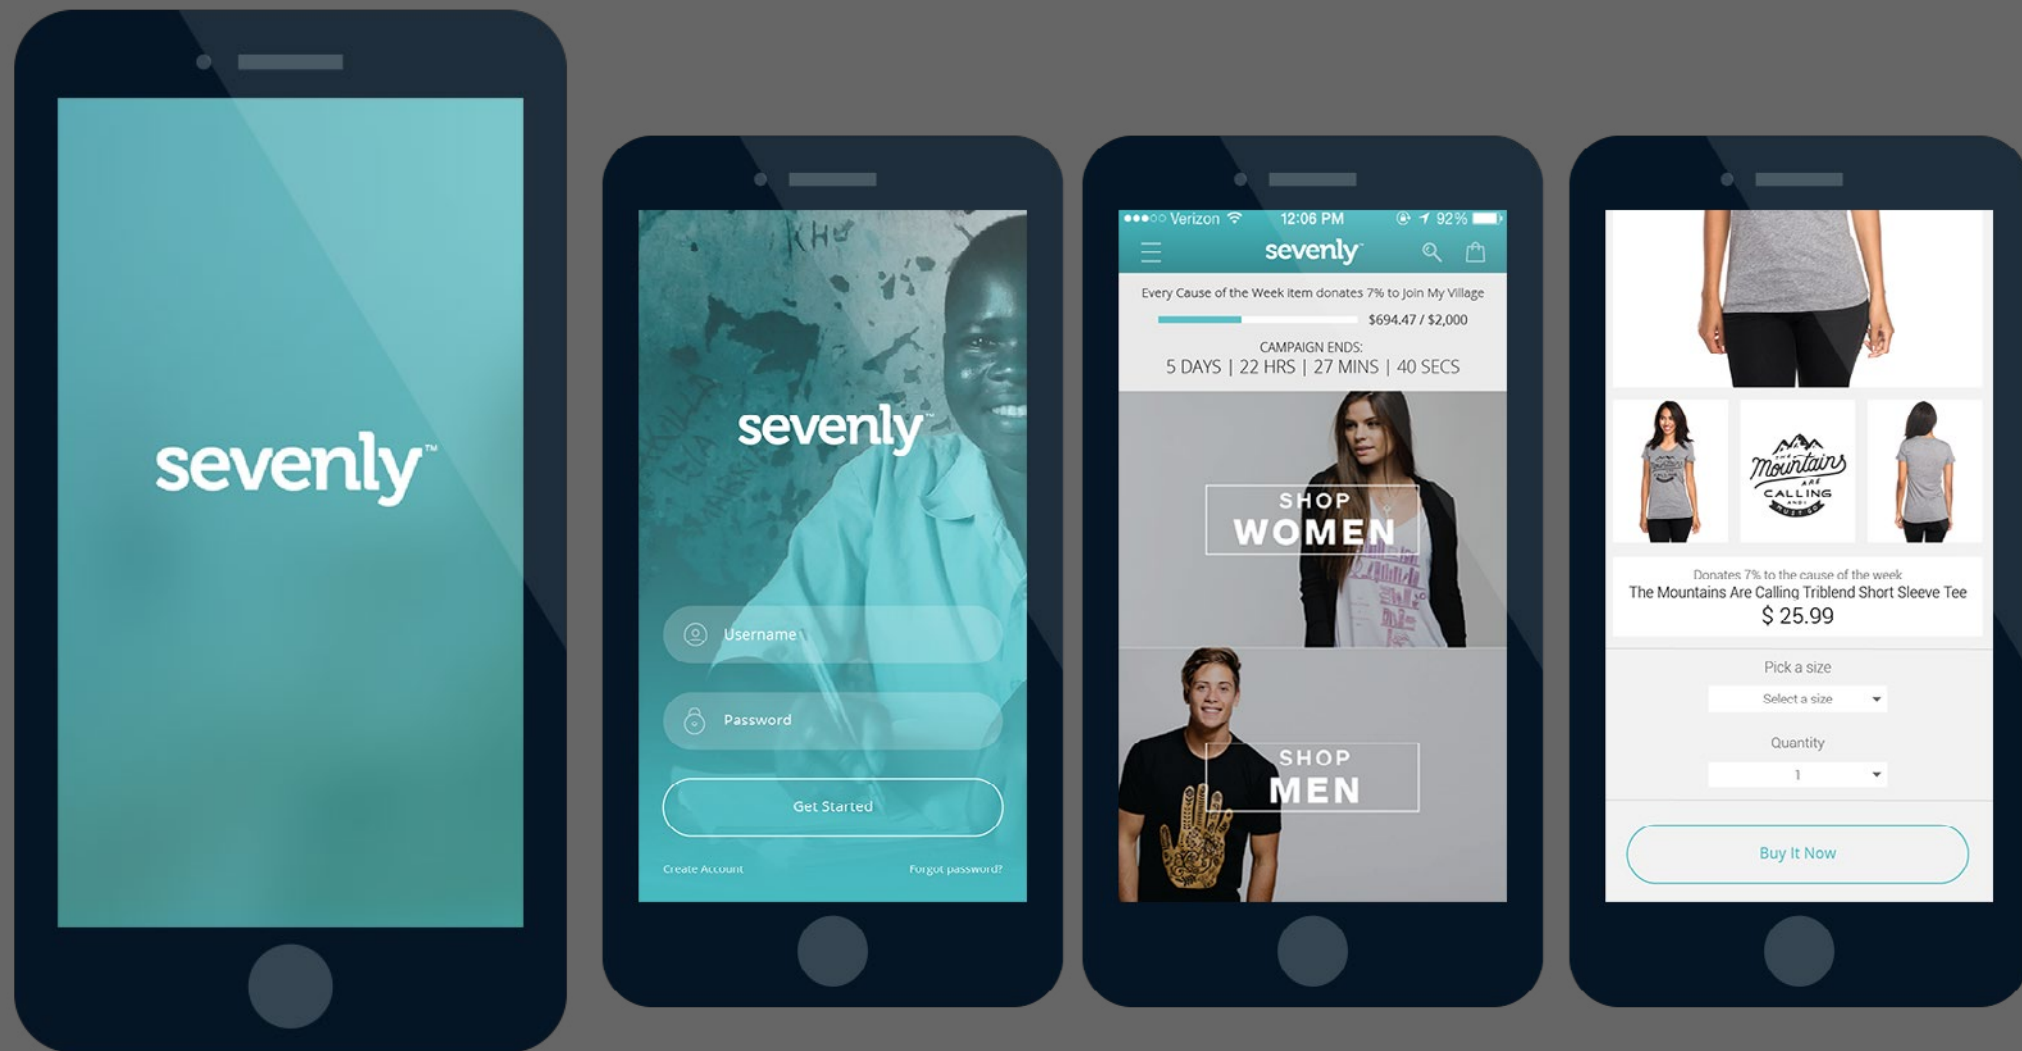

APPdesign

MOBILE STORE APP

Application made for a dough shop that lets customers view the menu, see their rewards, and place orders online.

APPdesign

E-COMMERCE MOBILE APP

This app invites customers to purchase “advocacy art, apparel and accessories” that donate to non-profits creating 7-day cause campaigns.

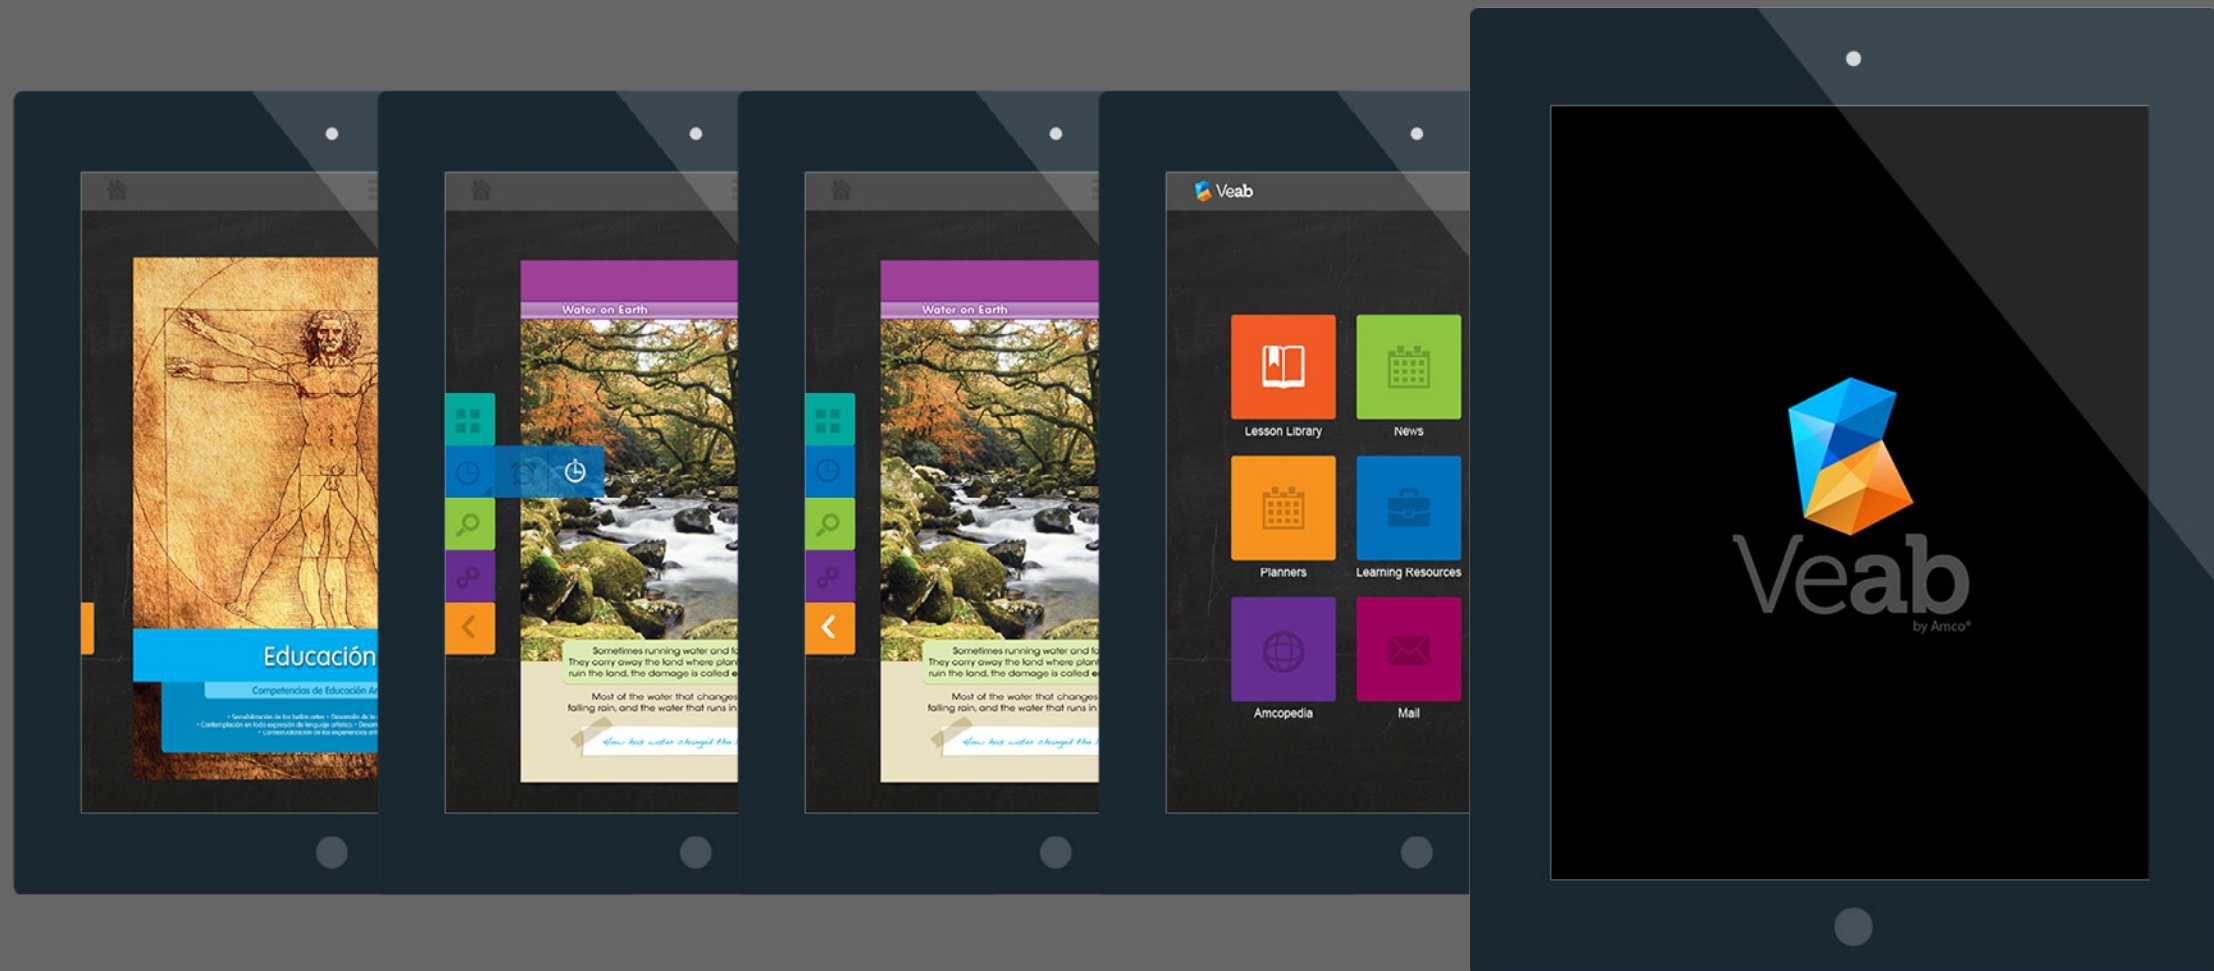

APPdesign

MUSIC APP

Audio streaming application that lets users listen to playlists by track, artist or album.

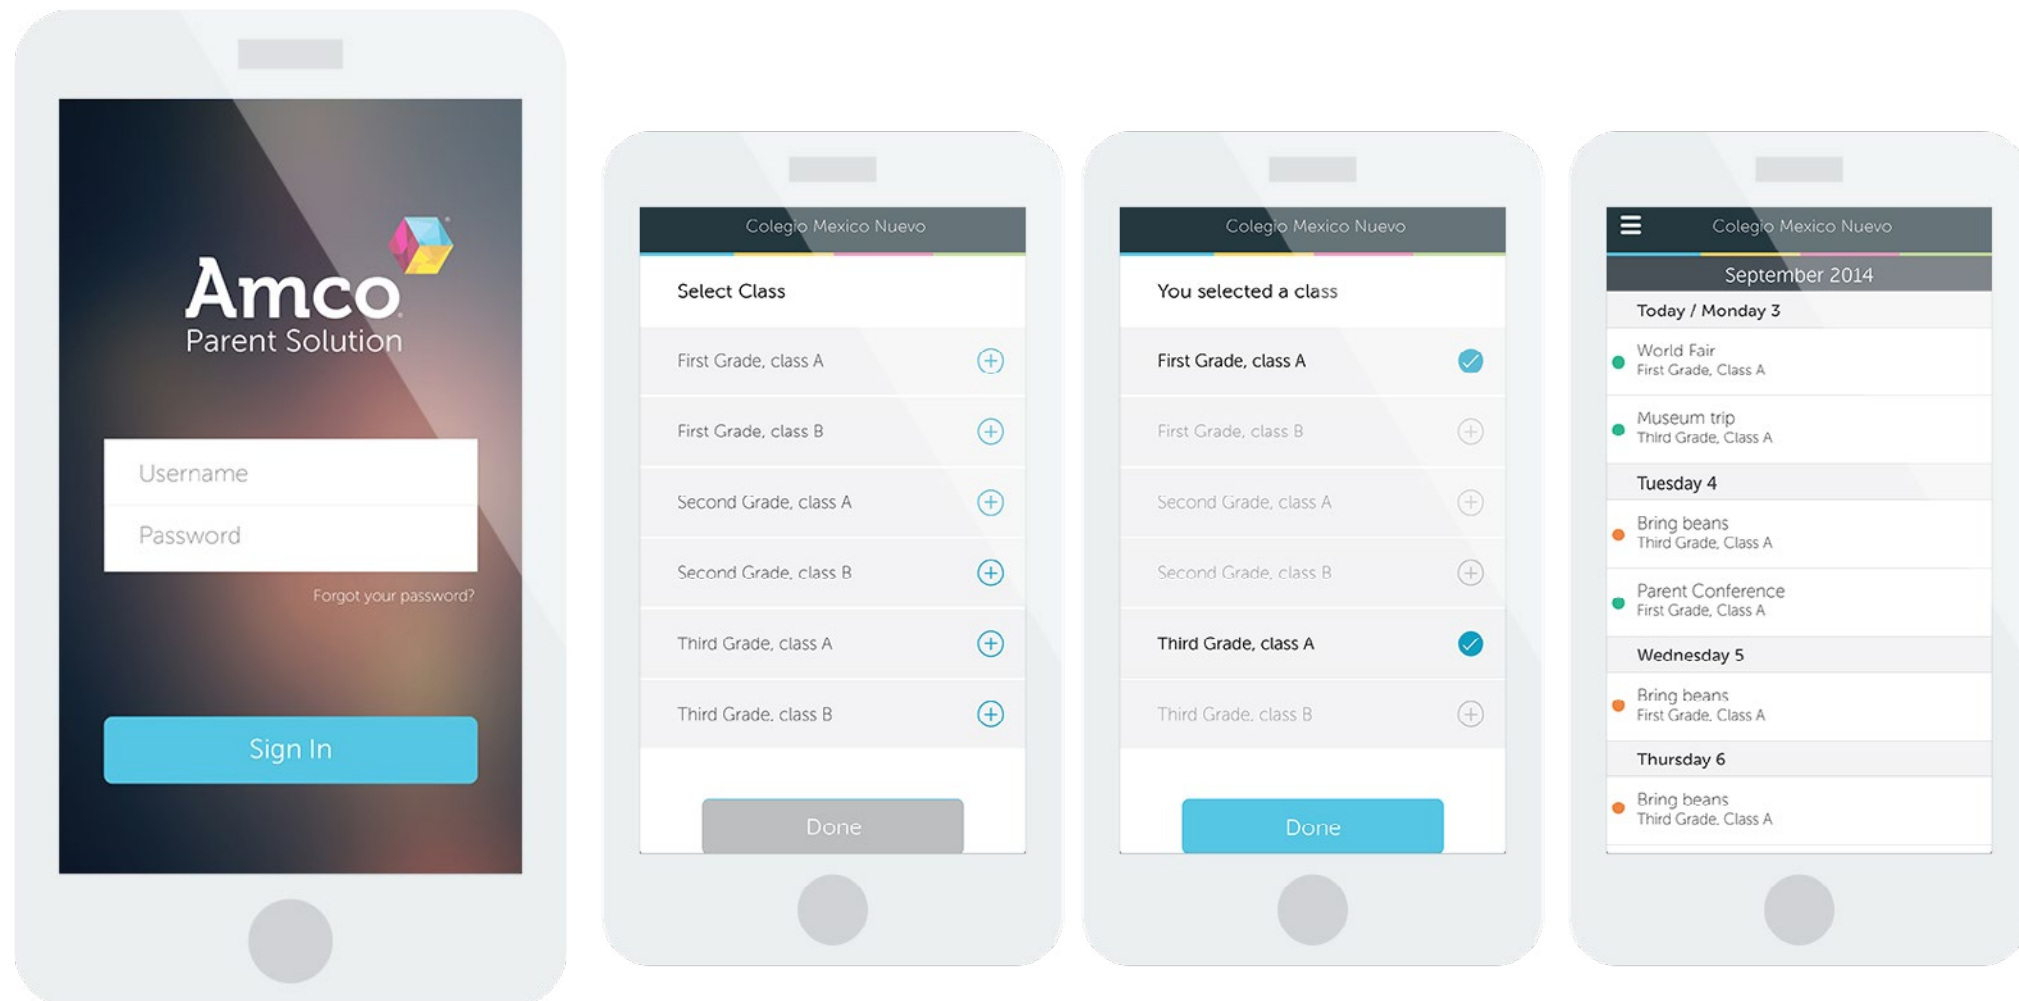

APPdesign

E-BOOKS APP

Application that shows book content as well tools that help give lessons more effectively. The interface of the app is designed in a way that does not distract the audience with the overall interface design. The top bar menu and tools can be easily hidden by the user to provide a better view of the digital book.

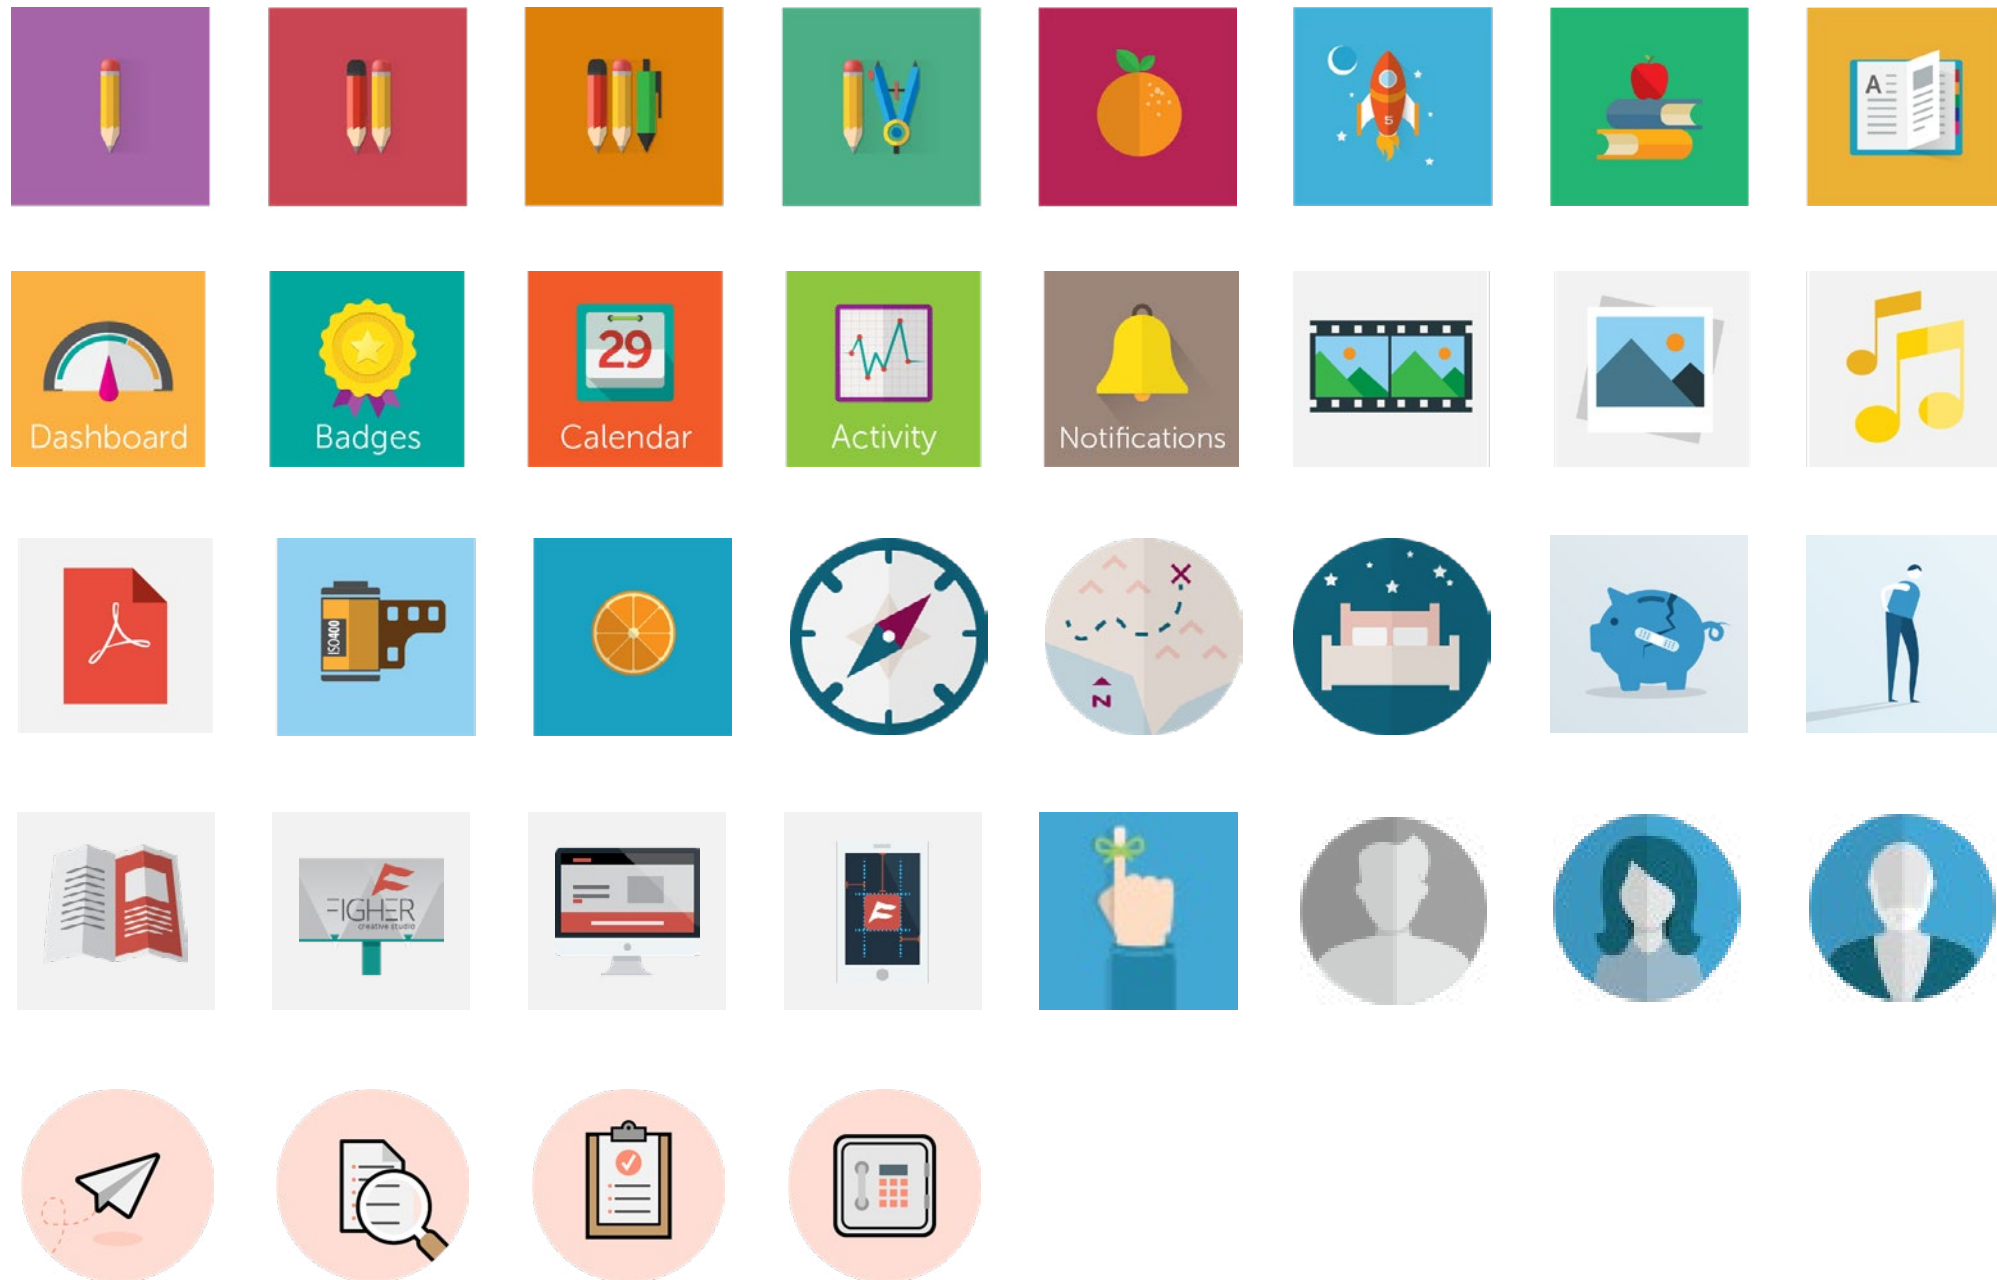

APPdesign

STUDENT CALENDAR APP

School application where you can choose a grade and a group to show assigned homework and activities. Every activity is color coded for easy location.

ICONdesign

Icons used for specific projects based on guidelines and styles for different websites and apps.
